Are you Infected?

Please add your keys using the id sent to you by your medical official

 Upload Keys

Prevention Tips

Maintain Social
Distancing

Clean your
hands often

Wear a
facemask

Do not Panic!

Generate Approval Code

After diagnosing a patient, please follow these steps to generate an approval ID so they can upload their Daily Keys from the CovidBloc App.

Generate Code

The contact number is **optional** and we only ask for it to send the patient an SMS with the code for their convenience. You can generate an approval without their number if they do not wish to disclose it.

Patient's Contact Number

Generate

Instructions

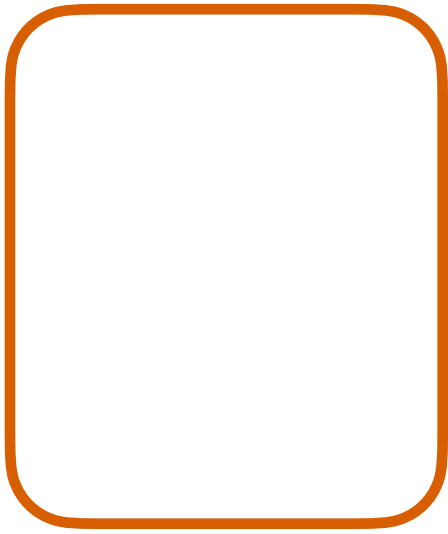

Instruct the patient to:

1. Open the app by tapping on the icon 
2. Tap the upload keys button 
3. Enter the approval id and the medical id received via sms 
4. Tap the submit button 
5. Tap the I agree button. This will share the patient's last 14 days temporary keys
